Authentication | User Stories | ERD's | Wireframing | Agile Development/Scrum

EDUCATION/TRAINING

General Assembly

Software Engineering Fellow | June 2020 – August 2020

Twelve-week, 500+ hour training program concentrated in JavaScript, HTML, CSS, Node, React, Python, Git, GitHub, MongoDB, SQL. *Highlights of Program include:*

- Programming and computer science fundamentals and software engineering best practices
- Front-end web application development and User Interface with JavaScript frameworks using React
- Thorough understanding of version control and collaborative software development using Git and GitHub
- Planned, designed, and prototyped various apps from conception to completion

The University of Georgia | Athens, Georgia

In pursuit of a Bachelor of Business Administration, Finance | August 2014 - April 2016

SOFTWARE DEVELOPMENT EXPERIENCE

Application Development (available on www.seibel.life)

- **Guess-To-Pet:** A front-end web application that allows users to guess the breed of random cats or dogs (loaded from Petfinder's API) based on user-inputted location and preference data. Also links users to the pet's adoption page found on www.petfinder.com. Focused a great deal of attention on User Interface (UI).
- **VenDom:** A Full Stack application for house hunting where users can create a favorites list of homes for sale or rent from multiple sites such as Zillow or Trulia.
- **Straight Up Dope Books:** Group developed MERN stack application that facilitates users discovering new "dope books" and allows them to generate a list of books to read and books they've read.
- **HoochNet:** MERN stack application that provides users with cocktail recipes based on ingredients already in their "hooch cabinet". Provides cocktail search functionality as well as recipes.

PROFESSIONAL EXPERIENCE

Retail Operations Director | September 2018 - July 2019

RiverRock

- Promoted from a manager role to become the youngest Director in the history of the company.
- Oversaw all day to day operations of four retail storefronts in the Denver metropolitan area.
- Managed a team of 35 employees and provided onboarding, training, and performance feedback for continuous improvement in all facets of business.
- Maintained financial control of \$25M in inventory and cash on hand, ensured all stores remained profitable.
- Identified solutions, managed projects in a disciplined manner, and provided hands-on leadership to all employees, while ensuring customers were satisfied.

Founder and CEO | January 2015 - May 2016

The Mobile Men LLC

- Started and independently ran a mobile phone repair business with over \$10K in monthly gross income.
- Maintained financial documentation and records, established revenue goals and budgets, and developed marketing plans across various channels.
- Developed innovative marketing strategies to attract new customers and build the company brand.

CUSTOMER SERVICE EXPERIENCE

Server/Bartender | June 2019 - March 2020

Hapa Sushi

- Demonstrated the ability to multi-task at a fast pace while dealing with various situations/individuals in a busy, high-end establishment
- Collaborated with other staff members and maintained flexibility in changing priorities to ensure guest satisfaction and operational success.

Server | September 2017 - September 2018

Irish Snug Bar and Restaurant

- Provided excellent customer service, adapted quickly to changing priorities, and developed effective problem-solving skills.

Group and Meeting Coordinator | May 2016 - July 2017

Holiday Inn Express and Suites

- Used project management and communication skills to manage the successful execution of hotel events such as weddings, corporate meetings, etc.
